

Motion Submission Form

What is a motion?

A motion is a proposal to change something about how the PPN is run or the what it does in order to make it better. All full members of DLR PPN can propose a motion and PPN members at the Plenary meeting vote for whether the proposal should happen or not. A motion can relate to the governance, activities, structure or strategy of the PPN, or anything that seeks to improve its effectiveness.

Proposed motion: (brief outline of suggested action)

That the PPN ask DLR CoCo to provide a Community Hub Building within which Charities and Community Organisations would have access to office and meeting facilities, with shared services. Such a centre would be the “go to” place to inspire, nurture and guide organisations with a social purpose to maximize the positive impact they have on society.

Name of proposing DLR PPN member organisation or group:

The Parents Family & Friends Association of St John of God Carmona Services

Name of proposer:

David Girvan, Chairperson

Reason for, or background to motion:

Charities and Community Organisations typically work from homes and lack the scale to expand and develop their social purpose due in part to the lack of scale and funding for appropriate facilities. This initiative would contribute towards building stronger charities and not-for-profit organisations in the County.

How would this action be carried out and by whom?:

A voluntary Board or DLR PPN could operate such a Centre, along the lines of the Carmichael Centre in Dublin.

Approximate cost, if any:

Self Financing operation if DLR CoCo provide Building

Desired outcome:

Stronger and more effective charities and not-for-profit organisations in the County.

Signed: David Girvan

Position: Chairperson
